

**RAISING YOUR BUSINESS
IS OUR BUSINESS**

PRE-ENGINEERED, QUICK-SHIP LIFTING BEAMS FROM CRANEWERKS

Your trusted experts since '97 – bringing precision, safety, and unmatched efficiency to your processes.

STANDARD LIFTING BEAMS CRANEWERKS' SLB MODELS

 (888)-544-2121

CraneWerks' Standard Lifting Beams are engineered to support long loads with stability. Featuring a center bail and two lower hooks, this below-the-hook device ensures even weight distribution and secure lifting—reducing stress on your loads and improving safety in every lift.

Single-Crane Operation

Easily lift long materials using just one crane.

Multiple Pick Points

Prevent load deflection and ensure proper support.

Heavy-Duty Construction

Built tough for industrial applications.

Customizable Options

Sizes, capacities, and configurations to fit your needs.
